A PLUS GLOBAL

BEYOND BORDERS, BEYOND EXCELLENCE

A PERSONAL INVITATION / 2027 INTAKES

Your next chapter. New Zealand, 2027.

"What could your experience become with a new perspective?"

Dear future student and skilled professional,

Whether you are in the **Philippines or anywhere across the globe**, I warmly invite you to explore New Zealand study opportunities and prepare an application for a suitable **2027 intake**.

As a Filipino founder whose own New Zealand journey began as an international student, I understand that this decision is about your future, your family and the life you hope to build.

Your qualifications and experience are a starting point. Together, we can explore programmes that build on your strengths, deepen your expertise or support a thoughtful change of direction.

OPPORTUNITIES TO EXPLORE

Nursing & health • Early childhood education • AI, IT & cybersecurity
Engineering & construction • Business & management
Master's & PhD study for eligible graduates and research candidates

Your success matters to us. From programme selection and agreed application steps to pre-departure preparation and arrival connections, we are here to listen, explain and help you prepare. You do not have to navigate the journey alone.

Thinking beyond study? New Zealand has skilled residence pathways for eligible professionals. Suitability depends on qualifying employment and the applicable immigration criteria.

Let's begin with your story.

Contact me with your CV, highest qualification, area of interest and preferred 2027 start date. Let's discuss a realistic next step.

Ms.Ann

ANN LIBUNAO | FOUNDER, A PLUS GLOBAL

Intakes, entry requirements and professional registration vary. Study does not guarantee employment or residence. Skilled residence requires qualifying employment and the applicable INZ criteria. Immigration advice must come from a licensed or exempt adviser; Ann's registration is pending, anticipated January 2027, subject to approval.
